

KETTERING UNIVERSITY
FIRST ROBOTICS SCHOLARSHIPS

We seek the problem solver, the innovator, the mathlete, the future CEO! In partnership with FIRST, Kettering University will award up to ten (10) merit based scholarships with a four year and a half value of \$22,500. Kettering has now awarded over two million dollars in FIRST scholarships since 1999!

FIRST students are a “Perfect Fit” at Kettering University. The very hands-on engineering and technical experiences learned while competing in FIRST are skills you can build on as an undergraduate student at Kettering. Kettering students work side by side with engineers and technical experts developing work skills and earning substantial wages to cover a portion of your educational expenses. All Kettering students are paid well for their cooperative education experiences.

Kettering University is the only university in the country teaching entrepreneurship across the curriculum and preparing every student on campus to be a leader in innovation. Plus, Kettering is the home of the most modern cooperative education program in the United States

NEXT STEPS:

- Apply for admission to Kettering University (www.admissions.kettering.edu/apply) and be admitted to Kettering by **March 8, 2010**.
- Be actively involved on a competing FIRST FRC team in your senior year of high school.
- Provide 2 letters of recommendation (at least one must be from the adult leader of your FIRST team).
- Submit a one-page essay describing your involvement in FIRST. Essay should reflect demonstrated leadership ability of applicant as well as how FIRST participation has influenced your career path.
